

LED iBond A/S is looking for a Supply chain and Manufacturing Manager – Electrical Hardware

Would you like to work with design and manufacturing of lightning solutions and related innovations for Smart Buildings and Vertical farming? And at the same time be a part of a growing industry, providing sustainable indoor farming solutions requiring less water, energy, and fertilizer consumption – actively contributing to fulfilling the green transition of the world?

The role as Supply and manufacturing manager

You will become part of a competent group of 10 dedicated employees working with mechanical and electrical design supply chain, manufacturing, and automation.

You will be responsible for a smooth operating supply channel with high-quality and timely delivery:

- Supply chain and sourcing
 - Contact to suppliers and manufacturers around the world
 - Active contributing to the development of new products, technologies, and customer centred projects ensuring manufacturability
 - Ensure that our ERP system and processes around manufacturing and stock are lean and accurate
- Manufacturing, planning and execution, leading our manufacturing unit in Farum
 - Managing production staff of 3 in Farum
 - Production planning
 - Constantly seeking new ways to optimize our manufacturing
 - Quality control and manufacturing certifications
 - Maintenance of our automatic production line
 - Participate in further automation ambition as well as meaningful outsourcing

We expect you to be on our site in Hørsholm as well as in the manufacturing site in Farum as needed.

Your profile

You have experience with manufacturing planning, sourcing and people management.

- You have experience with one or more ERP-systems, we currently use Uniconta (with manufacturing and stock modules)
- You have experience with automation and maintenance of automatic manufacturing lines
- Experience in mechanical and electrical assembly, quality, and testing.
- You are driven by process and cost optimization – lean thinking
- Purchasing experience
- You have excellent command of spoken and written English and Danish.

You will be part of a team of competent and dedicated colleagues looking forward to welcoming you. The company is characterized by an informal atmosphere and the tasks and responsibilities are wide.

What we offer

A position where you can develop further in a growth-oriented and international environment. You will be able to develop your skills in engineering, both professionally, technically, and personally. You get flexible working conditions, a competitive salary according to your qualifications as well as a good working environment in a flat and competent organization. Start date as soon as possible, but we will wait for the right candidate. Please send an e-mail with your CV or LinkedIn profile to CTO Ryan Rosenberg, rro@ledibond.com.
